Dear Parents:

Welcome to another school year at New Generation. This year will be an excellent year with many positive changes. This year we are going to be introducing laptops for all students. Each classroom will have its own set of 14 laptops for the students to use during class time as needed. We are working hard to bring technology into the classroom with all the educational benefits that it brings. One of the educational benefits is that we will be able to augment our curriculum with some online programs we have purchased, as well as offer many different online course as electives. Middle and High school will be able to choose their electives. Some of the electives that will be offered are Foreign Language: including Spanish, French and Chinese, Art, Music, psychology, Bible and many others. In addition to the online program we will be offering a structured PE program. In order to make plans for next year, specifically what electives you and your child would like to take, we are asking that you to contact the office and let us know. In addition, when you call we will inform you if there is any other information required to ensure that your child is enrolled at New Generation for the next year. On the back of this letter is a list of the elective choices. Please call with your three top choices of electives in order of desire, ie. my first, second, third choice for elective.

Another positive thing that we will have next year is bus transportation for a limited number of students. By now most of you have already indicated if you would like this service, however if you have not, let us know when you call in.

We are including the school calendar for next year and want to invite you to our open house on August 29th at 5:00 p.m. This will be a time to meet your child/childrens teacher/teachers. During the open house each teacher will go over their classroom procedures and expectations.

Please contact the office by July 29th so that we can know your intent for next year and make sure your enrollment packet is complete.

God Bless

Paula Gorman

Elective Selection:

Middle School:

Foreign language: Spanish, French, Chinese, German and Latin

Art

Music
